# Price updates and Comparison Reporting will help you make more margin every day!

## SYM-PAC's Comparison Report — the integration engine

- The purpose of the Comparison Report is to compare product information between your **SYM-PAC** product records and the Mitre 10 EPG product records.
- Either just report on proposed changes — OR
- Easily take up changes to cost and sell prices, queue resulting price labels, update other data fields (supplier, APN, etc) of stock records — with a click!
- The Comparison Report integrates directly into Table Magic for ease of price pointing and product management

## Wide range of updating options

The range of updating options provided by SYM-PAC allows you to get the most out of your Mitrecom and make it work for your business.

- Update RRP from EPG:**  
Select this option to use Mitre 10's recommended retail prices — add a percentage if you like.
- Change Markups:**  
Set the desired mark-up for your products to be the mark-up you've selected.
- Update Stock File:**  
Run in Report Mode only, or Update Mode.
- Use RRP Rounding:**  
Apply your rounding routine to recalculate prices.
- Recalc RRP:**  
If you chose not to update your RRP from the EPG, this is the option you should use. The Recalc RRP option will set the RRP according to the desired mark-up set in your product records. Gives you greater control over pricing.

### Supplier Update

Supplier Code	Name	Address 1	Address 2	Address 3
2187	AL KO INTERNATIONAL	26 HALLSTROM PLACE		WETHERILL PARK VIC
2728	ROMANTIC NURSERY PTY LTD	PO BOX 567		LILYDALE VIC

- Update Source:**  
You can choose to update all products from a particular source only. Options are: Warehouse products, direct products, agency products, or all products.
  - Warehouse products
  - Direct products
  - Agency products
  - All products
- Do not Decrease Prices:**  
Prevents inadvertent lowering of the sell prices.
- No Price Changes < 5 cents:**  
Stops any price changes less than 5 cents to occur — eliminating wasted time!
- Supersede (to Transfer Additional Information):**  
Move the min/max & bin for the superseded product to the new product.
- Create Excel Spreadsheet:**  
Create a **SYM-PAC** Table Magic spreadsheet.
